SURVIVORS II: Alumni Continuing the Healing Journey

Rio Retreat Center's transformative intensive workshops have been designed by mental health experts and are facilitated by licensed, master's-level therapists and certified professionals. Our workshops specifically address the needs of those who are new in recovery, are stable in recovery and want to deepen their experience, or are looking for a source of renewal. Participants work on sensitive issues in a concentrated format, allowing them to enhance their journey by gaining insight into unhealthy, embroiled patterns and practicing new relational skills within a safe environment.

ABOUT THE WORKSHOP

Survivors II is an advanced intensive workshop customized to meet the needs of our Alumni. Whether you are an Alumni of The Meadows inpatient programs or our Survivors I workshop you can use your advanced insight and awareness to further your process. It is designed for those with unresolved childhood and/or adult relational trauma who are seeking healing and freedom from lingering emotional and behavioral struggles. This workshop builds on the work accomplished in Survivors I and also provides more completion of its previous healing work. Survivors II is an experiential workshop combining our Senior Fellows Models. We incorporate Pia Mellody's Codependence and Post Induction Therapy (PIT) model, Dr. Tian Dayton's Relational Trauma Repair (RTR) model and Dr. Richard Swartz's Internal Family Systems (IFS) model. Drawing from Gestalt and parts work, psychodrama, mindfulness, and other therapeutic techniques to meet the individual needs of each participant. (Prerequisite: Survivors I)
